**Drive for the Cure**

Benefiting Western States Cancer Research NCORP's fight against cancer

## **19th Annual Drive for the Cure Golf Tournament Arrowhead Golf Course in Littleton, CO August 3rd, 2026**

- As our longest running and most successful event, it brings together our community partners, sponsors, friends and family to pick up their clubs against a formidable foe, cancer.
- Western States Cancer Research NCORP, dba Altitude Clinical Research, began as a vision of local oncologists who wanted to ensure that Colorado residents could benefit from cancer clinical research locally. Today, WSCR-NCORP partners with hospitals, community clinics, and physicians delivering innovative cancer treatment, symptom control and prevention in local communities across the U.S.
- With your support, you can help define the next era of the War on Cancer instilling hope and compassion into the battle fought by millions of Americans.

*"Within hours after receiving my diagnosis, I found myself on the conveyor belt of the cancer treatment journey. Becoming aware of a study gave me an option. Knowing that participating in the study could help future cancer patients fight a better battle against their disease gave purpose to the fight I was facing. Deciding to participate just felt like the right choice. It brought me a sense of peace."*

*~Sheila Jones~*
